Dated 13th February, 2013.

To,
The Additional Secretary,
Food Supplies & Consumer Welfare Dept,
Government of Odisha,
Bhubaneswar-751001.

Dear Sir,

Sub: Supply of Rice Husk to Biomass Power Project at Sambalpur.

With reference to your letter No.2744 dated 4.2.2013 on the above subject, we would like to inform you as under:-

1. That about 20 to 25% husk is generally obtained by a miller by milling of paddy and a substantial portion of which is being consumed in Boiler and Drier Plants by the rice mill itself.
2. Some quantity of surplus husk may be available with the millers depending upon their consumption pattern and it is not possible for us to quantify the availability.
3. There is no fix market rate as such and the rate depends upon the location of the mill i.e. mills situated in interior pockets fetch lesser price compared to mills on National Highways.

Therefore, OCTANT Industries Ltd may kindly be advised to contact the individual millers of the area of their choice for negotiating rates and assessment of availability of husk. District wise list of rice millers with address and phone numbers is already available at FS&CW portal. For any further assistance, they may also contact us directly.

Thanking you,

Yours faithfully,

Sd/-.

(Santosh Kr. Agrawal),
Secretary.
